RV Servicing and Special Repairs

Cliff with RV World in Hudson worked for Winnebago Industries many years ago and has tremendous knowledge when it comes to servicing Winnebago & Itasca products. They always have a good inventory of parts and accessories and even some used equipment such as tow bars, etc.

I took my 2006 Itasca SunCruiser in for refrigerator repair. Last year another dealer replaced the cooling unit and it never seemed to get cool enough on a hot day. Cliff discovered that the other dealer hooked up the cooling fans wrong and they weren't working.

Cliff pulled the unit, cleaned and hooked up the fan wiring properly and re-located the cool air deflectors. Now we enjoy steady temps in the fridge of 35-36 degrees.

They were very neat, timely and their labor rates are less than the big dealers. I would highly recommend RV World of Hudson to all Winnie Gators Members.
